

Problem 1d(i): Inverse transform samples vs true density

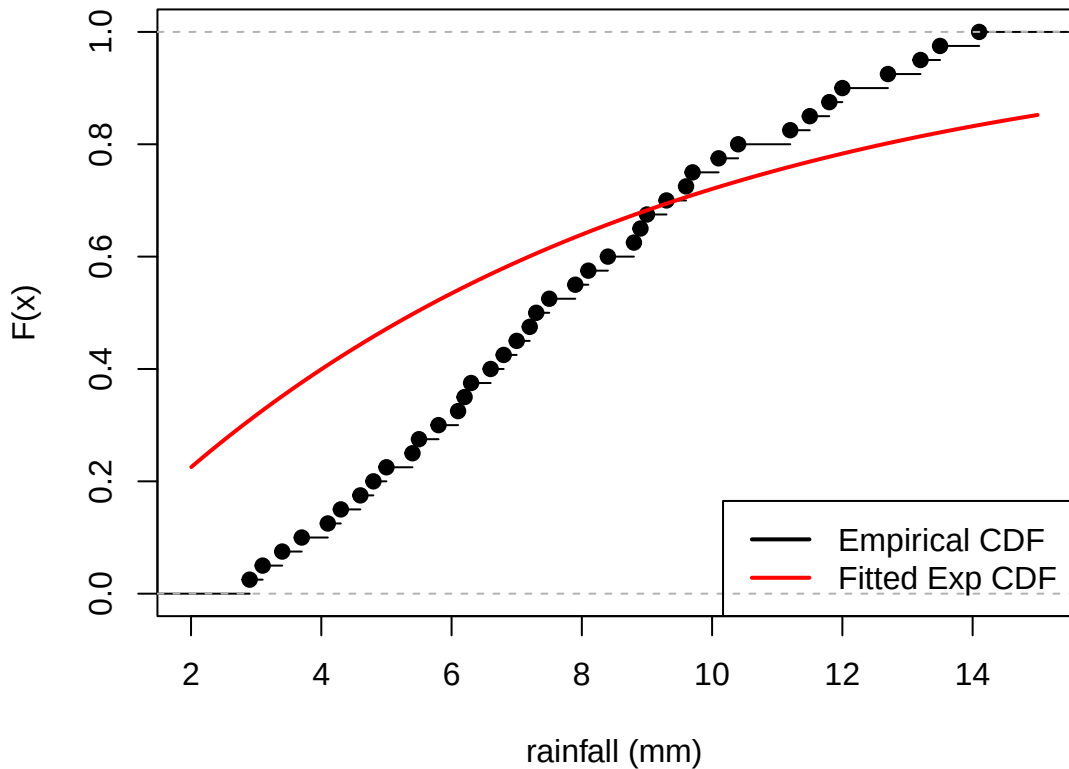

Problem 1d(ii): ECDF vs true CDF

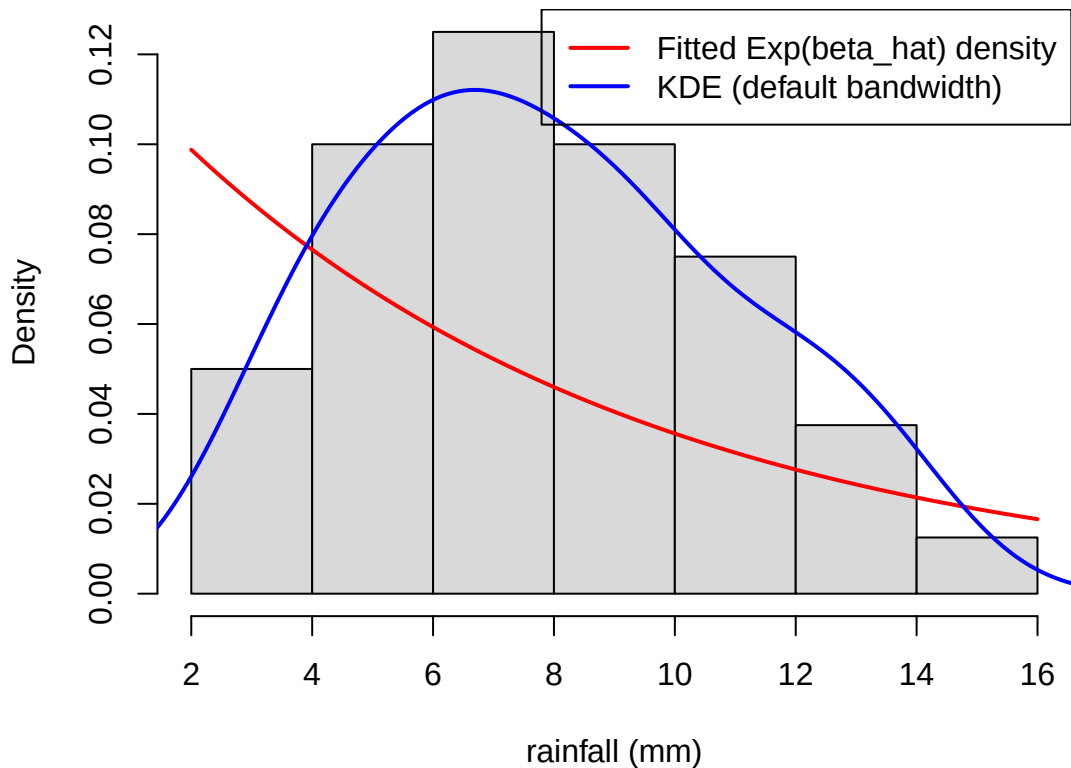

Problem 1f(i): AR samples vs true density

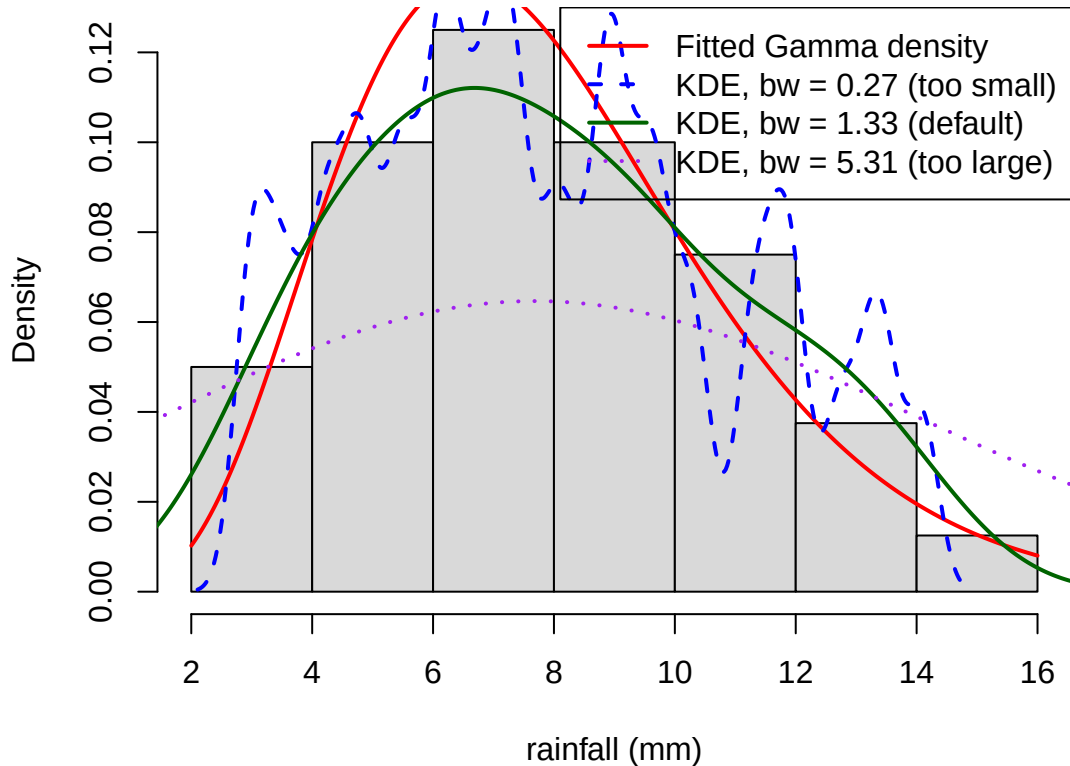

Problem 3a: ECDF of rain vs fitted Exp(beta_hat) CDF

Problem 3b: Histogram of rain with fitted Exp density and KDE

Problem 3d: Fitted Gamma density and KDE at three bandwidths

Problem 4b(i): Simulated distribution of $Y = A+B+C+D$
